## 四季を通じて使える Suitable for all seasons

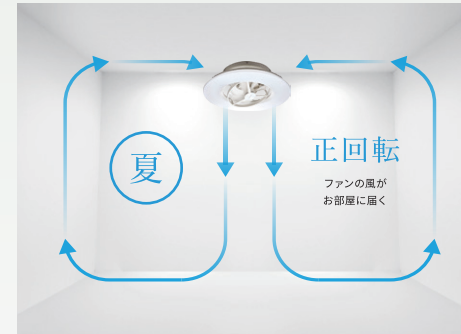

Downward airflow not only provides comfortable breezes but also expedites the cooling throughout the room when air-conditioning is in use.

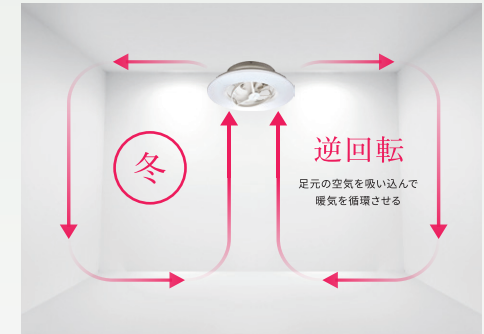

Upward airflow circulates air in the room. It also pushes the warmer air back to the living area when heating is in use.

## 四季を通じて使える 四季適用

有效地幫助冷氣吹送至家中每個角落，令室溫更快冷卻，從而更舒適。

把停留在天花層較暖的空氣推回活動層，令室溫更均勻外，亦有效驅走悶氣。

## 循環メリット Benefits of the fan

### More Comfortable

In summer, when used with air-conditioning, it helps cooling the room faster and efficiently. In winter, when used with heating, it pushes the warmer air that traps at the ceiling level down.

### Saving on Energy Cost

When paired with air-conditioning, the revolving air circulation enhances cooling and heating, allowing for higher summer and lower winter settings while boosting comfort. By doing so, it also cuts electricity costs significantly.

※ <https://www.enecho.meti.go.jp>

### Quality Sleep

The gentle circulation of air within the room promotes a deep and uninterrupted sleeping experience. Furthermore, this also helps alleviate the discomfort that can come from excessive dependence on air-conditioning.

## 循環メリット 循環扇效能

### 更舒適

夏天時配合冷氣使用，能令室溫更快冷卻；冬天時配合暖氣使用，能把停留天花層的暖空氣送回地面。兩者均能有助調節室內體感溫差達 3℃。

### 節省電費

循環氣流能提高製冷及製暖效能，空調的溫度在夏季可設定高一點；冬季可設定低一點，這不但更舒適，更可節省可觀的電費\*。

※ <https://www.enecho.meti.go.jp>

### 提升睡眠質素

Circulight 把室內氣流循環，打造無滋擾的舒適睡眠環境，有助更深層的睡眠，更加可以減少因過度使用冷氣而引致的不適。

## ライト機能 Efficiency Lighting

### Perfect Illumination

Circulight patented light diffusion technology provides bright and comfort lighting to all rooms.

### Help with Concentration

The daylight tone (white light) is bright yet soft-to-the-eye. Statistics in Japan shown such lighting helps with concentration on reading and studying.

### Relaxation

The soft and warm light tone (yellow light) has a lighting therapy effect and is perfect for relaxation after work.

## ライト機能 燈光效能

### 完美亮度

專利的燈光擴散透鏡技術，令客廳、飯廳或睡房都一樣明亮舒適。

### 更專注學習

根據日本資料顯示，模仿日光的白光，明亮又護眼，能令人更專注閱讀及學習。

### 心情放鬆

柔和又舒適的黃光，適合工作後回家放鬆心情，有 Lighting Therapy 的效能。

The cool white light provides daylight alike illumination

The warm yellow light imitates the natural sunlight

白っぽく青みがかった  
最も明るい色
